

Working After Retirement Waiting Period & Contribution Rates

Waiting Period Change for Returning to Work After Retirement

Senate Substitute for House Bill 2072 was passed and signed into law last week. This legislation changes the waiting period for retirees returning to work. All retirees must now **wait 60 days** to go back to work for any Retirement System employer. We are sending letters to all members who have already applied for retirement to let them know about the change. Please notify members of this change, especially those who are planning to retire soon.

Working After Retirement Contribution Rates

State Employers	FY 2010	11.34%
State Employers	FY 2011	11.39%

Local Non-School Employers	FY 2009	12.13%
Local Non-School Employers	FY 2010	12.52%
