

New Compensation to Include Moving Expense Reimbursement

The Change

Starting July 1, 2019, you'll need to include employer-paid moving expense reimbursements when reporting employee compensation to KPERS. This **does not** include active-duty military who are ordered to move.

Reminder

The employer-paid part of health insurance benefits is **not** considered compensation that's reported to KPERS.

Resource

Check out [the full list](#) of what compensation should and shouldn't be included. It's at kpers.org, on the Employer Manual page, under Contribution Information.
