

Optional Life Insurance

Age Bracket Changes

Premium changes effective January 1, 2021, will show up on your January 2021 premium report, including **age bracket changes**. These members moved into a new age bracket before January 1.

- [Login](#) to the EWP and go to your Optional Life page.
- Look at “Changes since last report” to see premium changes.
- Types of changes:
 - Age bracket
 - Open enrollment
 - New enrollment

Upgrade

The **Changes since last report** now shows the new total monthly premium amount. For example, if someone has member, child and spouse coverage, and only the spouse has an age bracket change, the new premium will reflect the total amount (member+child+new spouse premium).

Tip: Click on the member’s Social Security number link, on the Premium Report, to see more detail.
