■ General Information

This form is intended for use by both Tier I and Tier II members. However, Tier II members will not complete Part C. Tier I members need to fill out all sections. This is because disability benefits are different between the two tiers.

■ Part A - Member Information

Please complete the indicated information. This will help the Retirement System communicate with you during the disability process and help you get your disability benefit without undue complication. You can get your employer's ID number from your designated agent.

■ Part B – Disability Notice

Part B is to be completed by both Tier I and Tier II members.

1. Fill in the date when: (a) the injury, condition or disease first prevented you from performing the full duties of your job; or (b) a doctor or physician certified your condition as disabled.
2. Fill in the date of your last day actively at work.
3. This question may be left blank if you are still on your employer's payroll. Many members use their accumulated sick leave or annual leave until they are approved for disability benefits. Upon approval of your claim, you and your employer must determine your last day on the payroll.
4. List the names and addresses of all physicians, practitioners, hospitals or clinics you have consulted as well as the date of your appointments since your disability began. If you need additional space, use a separate piece of paper and attach it to this form. Check the box to the right of the question if you have attached additional information to this form.
5. Describe your disability, what caused it, and how it affects your performance at work.

■ Part C – Additional Information for Tier 1 Members

1. Read the definition of service-connected disability carefully and check the appropriate box. If you checked service-connected disability, you will need to provide the date and description of the event (if any) that caused your disability.

Service-Connected Disability is defined in K.S.A. 74-4952(10) as any physical or mental disability resulting from external force, violence or disease caused by an act of duty as a police officer or firefighter.

If a Tier I member after five years of credited service is disabled due to a heart disease, lung/respiratory tract disease or cancer:

- The Retirement System presumes that the disease or cancer is service-connected.
 - The types of cancers presumed to be service-connected are types caused generally by exposure to heat, radiation or a known carcinogen (cancer-causing agent).
 - If the Retirement System receives evidence that the disease or cancer is not service-connected, the member is responsible for presenting additional evidence that the disability is service-connected.
2. For Tier I members with a service-connected disability, children under age 18 may receive an additional benefit. Please include birth certificates and adoption papers (if applicable). You will need to apply for a conservatorship for children under age 18.
 3. For Tier I members with a service-connected disability, children between ages 18 and 23 who are full-time students may also receive a benefit. Please include birth certificates and adoption papers (if applicable), as well as proof of enrollment.

■ Part D - Member Signature

Tier I and Tier II members need to provide their signature to permit the release of relevant medical information to the Retirement System. This is necessary in order for the Retirement System to process your claim as quickly as possible.
